Hi Calvin, David,

We have confirmed with our 3<sup>rd</sup> Party Data suppliers, i.e. SEI and IHS, that their counsel are available and will attend the call (virtual meeting) on Aug 3, from 3 to 4 pm (Pacific).

Please advise if you would like me to set up the meeting (Microsoft Teams invite) or if EPA will arrange. Either way, we can forward the invite to the appropriate parties.

Thank you again and looking forward to the discussion.

Best Regards,  
-Rebecca

Thank you for the prompt response, Calvin.

I will reach out to our contacts at our third-party data suppliers to verify this day/time works. If so, I will send out a Teams meeting invite.

Thanks again and talk soon!

Regards,  
-Rebecca

Hi Rebecca,

That works for me.

Calvin and David – look forward to virtually meeting you then!

Best regards,  
Natalie

Hi Calvin,

I hope this email finds you well.

I wanted to follow up on our discussion regarding confidential business information included in our Mendota Project Class VI Permit application (Pre-Construction). More specifically, how it will be treated in the ongoing stages of the permitting process, including any public hearings that may be required. We are now in contact with the legal teams from our 3<sup>rd</sup> party data suppliers, e.g. SEI, IHS, etc., so could set up a call with all parties if you'd prefer. Is there a day/time in the next week or two that works best for you and potentially EPA's Office of Regional Counsel?

On a separate but related topic, we also have a few clarifying questions as to how the environmental review requirements under NEPA will be met / conducted during the Class VI permitting process. We can cover this on the same call, at the end of the CBI discussion perhaps, or could set up a separate call to discuss. Please let me know your thoughts.

Thanks again, Calvin. Looking forward to hearing from you soon.

Best Regards,  
-Rebecca

Hi Rebecca,

I was able to access the file with the password you provided.

We would treat this information as confidential unless we make a determination that it is not in the future (there will be a process that involves both EPA and CES actions if such a determination needs to be made – this is the subject of our upcoming conference call).

Thanks again for your assistance and patience.

Calvin
